7% Liquid Iron

Analysis (w/v): Iron (Fe) 7% (5.6% w/w)

Recommendations for use:

RATES OF APPLICATION:

Apply @ 17 Litres per Ha in 200-500 Litres of water.

Repeat applications can be made as required, usually at 4-6 week intervals during winter months.

To be used only where there is a recognised need. Do not exceed recommended application rate.

Tank Mixing:

Half fill spray tank with clean water. Add concentrate at required rate and mix thoroughly whilst adding remaining water.

Conditions Of Supply:

All goods supplied by us are of a high quality and we believe them to be suitable, but as we cannot exercise control over their storage, handling, mixing or use or of the weather conditions before, during or after application which may affect the performance of the goods, all conditions and warranties, statutory or otherwise, as to the quality or fitness for any purpose of our goods are excluded and no responsibility will be accepted by us or re-sellers for any failure in performance, damage or injury whatsoever arising from their storage, handling, application or use. These conditions cannot be varied by our staff or agents whether or not they supervise or assist in the use of such goods.
