IF ON SKIN: Wash with plenty of water/.

IF IN EYES: Rinse cautiously with water for several minutes.

Remove contact lenses, if present and easy to do. Continue rinsing.

Specific treatment (see instructions on this label).

Rinse mouth.

### Application Rates:

#### **For foliar application:**

10 to 20 litres / ha in 400 to 800 litres of water  
or for smaller areas 0.5 to 1.0 litres / 500m<sup>2</sup> in 20 to 40 litres of water.

#### **For root application:**

20 to 50 litres / ha in 400 to 800 litres of water  
or for smaller areas 1.0 to 2.5 litres / 500m<sup>2</sup> in 20 to 40 litres of water.  
When applied at the higher rate of 50 litres / ha we recommend watering in the fertiliser with irrigation at 10 000 litres of water / ha or 500 litres / 500m<sup>2</sup>.  
This is particularly important in hot, bright conditions.

#### **Application frequency:**

The foliar or root application can be made at weekly intervals to maintain even turf growth.  
For weekly application give up to 20 litres / ha.

**WARNING**
