Maize Feeder

A blended mix of all the major nutrients essential for early growth and development of maize plants. Formulated with humates to improve plant uptake and translocation to sites of active growth

Recommendations for use:

RATES OF APPLICATION:

Maintenance:

3L/Ha as soon as there is sufficient leaf area

Deficiency:

5L/Ha as soon as symptoms appear. Repeat every 14 days as required.

Conditions Of Supply:

All goods supplied by us are of a high quality and we believe them to be suitable, but as we cannot exercise control over their storage, handling, mixing or use or of the weather conditions before, during or after application which may affect the performance of the goods, all conditions and warranties, statutory or otherwise, as to the quality or fitness for any purpose of our goods are excluded and no responsibility will be accepted by us or re-sellers for any failure in performance, damage or injury whatsoever arising from their storage, handling, application or use. These conditions cannot be varied by our staff or agents whether or not they supervise or assist in the use of such goods.

ANALYSIS (w/v):

Nitrogen (N) 3.7%

(Ureic N) 3.7%

Magnesium (Mg) 1.2%

Sulphur (S) 5.0%

Boron (B) 0.9%

Manganese (Mn) 6.0%

Molybdenum (Mo) 0.11%

Water Rate:

Conventional sprayer: 100-200 l/ha

Fill the sprayer as required and commence agitation. Shake the container and add the required amount of product. Continue agitation whilst spraying.

Tank Mixing:

Maize Feeder is physically and chemically compatible with most pesticides. Check by mixing a small amount in the correct ratio adding the product to the water, followed by the pesticide. Crops can be susceptible to scorch from mixtures of Maize Feeder and pesticides applied during periods of rapid growth or stress.

RL472A

Safety Precautions:

Irritating to eyes and skin.
